**DETAILED ACTION**

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 06/06/2006 has been entered.

2. The Amendment filed by Applicant on 06/06/2006 has been entered.

***Response to Amendment/Arguments***

3. Applicant's amendment and arguments filed on 06/06/2006 have been fully considered and they are found unpersuasive.

4. The rejection of claims 1-43 and 52-53 under 35 U.S.C. 103(a) as being unpatentable over Fournier et al., WO 97/17129 (hereinafter "Fournier") is withdrawn.

***Allowable Subject Matter/Reasons for Allowance***

5. Claims 1-6 and 9-53 are allowed.

6. The following is an examiner's statement of reasons for allowance: The closest prior art located or identified by the Examiner is Fournier. The present claims differ from Fournier in that the present claims require a pre-polymer having a molecular weight range of about 20,000 to about 30,000 and the weight range of the poly-functional cross-linking agent in the mixture is between about 1% and about 1,500% w/w. Fournier teaches a concentration of a poly-functional cross-linking agent of 0 to 0.8% and the molecular weight of the pre-polymer (PVA) is 9,000 to 10,000. See Fournier pages 9-12.

7. As of the date of this Notice of Allowability, the Examiner has not located or identified any reference that can be used singularly or in combination with another reference including Fournier to render the present invention anticipated or obvious to one of ordinary skill in the art.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
